HOUSE BILL NO. 443

INTRODUCED BY M. LANGE

A BILL FOR AN ACT ENTITLED: "AN ACT GENERALLY REVISING THE MONTANA MAJOR FACILITY SITING ACT; CLARIFYING THE POLICY OF THE MONTANA MAJOR FACILITY SITING ACT; MODIFYING THE DEFINITION OF "CERTIFICATE"; MODIFYING THE INFORMATION REQUIREMENTS FOR APPLICATIONS; ELIMINATING THE REQUIREMENT THAT A COPY OF AN APPLICATION BE SENT TO OTHER LOCAL, STATE, AND FEDERAL GOVERNMENTAL ENTITIES; MODIFYING PUBLIC NOTICE REQUIREMENTS; REVISING THE FILING FEE SCALE; REDUCING CERTAIN TIME REQUIREMENTS OF THE SITING LAWS; QUALIFYING THE USE OF MONTANA ENVIRONMENTAL POLICY ACT DOCUMENTS; INCLUDING ECONOMIC IMPORTANCE AND BENEFITS IN DETERMINING THE SIGNIFICANCE OF A FACILITY'S IMPACT; REVISING THE DEPARTMENT'S APPROVAL CRITERIA FOR CERTAIN FACILITIES; CLARIFYING REQUIREMENTS FOR COMMENCEMENT OF CONSTRUCTION; AMENDING SECTIONS 7-1-111, 69-3-1205, 75-20-102, 75-20-104, 75-20-201, 75-20-211, 75-20-213, 75-20-215, 75-20-216, 75-20-231, 75-20-232, 75-20-301, 75-20-303, 85-2-124, 85-2-607, 85-15-107, AND 90-6-207, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:

Section 1. Section 7-1-111, MCA, is amended to read:

"7-1-111. Powers denied. A local government unit with self-government powers is prohibited from exercising the following:

(1) any power that applies to or affects any private or civil relationship, except as an incident to the exercise of an independent self-government power;

(2) any power that applies to or affects the provisions of 7-33-4128 or Title 39 (labor, collective bargaining for public employees, unemployment compensation, or workers' compensation), except that subject to those provisions, it may exercise any power of a public employer with regard to its employees;

(3) any power that applies to or affects the public school system, except that a local unit may impose an assessment reasonably related to the cost of any service or special benefit provided by the unit and shall exercise any power that it is required by law to exercise regarding the public school system;

(4) any power that prohibits the grant or denial of a certificate of public convenience and necessity;

(5) any power that establishes a rate or price otherwise determined by a state agency;

(6) any power that applies to or affects any determination of the department of environmental quality with regard to any mining plan, permit, or contract;

(7) any power that applies to or affects any determination by the department of environmental quality with regard to a certificate of ~~environmental compatibility and public need~~ compliance;

(8) any power that defines as an offense conduct made criminal by state statute, that defines an offense as a felony, or that fixes the penalty or sentence for a misdemeanor in excess of a fine of $500, 6 months' imprisonment, or both, except as specifically authorized by statute;

(9) any power that applies to or affects the right to keep or bear arms, except that a local government has the power to regulate the carrying of concealed weapons;

(10) any power that applies to or affects a public employee's pension or retirement rights as established by state law, except that a local government may establish additional pension or retirement systems;

(11) any power that applies to or affects the standards of professional or occupational competence established pursuant to Title 37 (professions and occupations) as prerequisites to the carrying on of a profession or occupation;

(12) any power that applies to or affects Title 75, chapter 7, part 1 (streambeds), or Title 87 (fish and wildlife); and

(13) any power that applies to or affects landlords, as defined in 70-24-103, when that power is intended to license landlords or to regulate their activities with regard to tenants beyond what is provided in Title 70, chapters 24 and 25. This subsection is not intended to restrict a local government's ability to require landlords to comply with ordinances or provisions that are applicable to all other businesses or residences within the local government's jurisdiction."

Section 2. Section 69-3-1205, MCA, is amended to read:

"69-3-1205. Public comment. (1) The commission shall conduct a public meeting for the purpose of receiving comment on a plan. The commission or the department of public service regulation may comment on the plan. A comment by the commission or the department may not be construed as preapproval by the commission of rate treatment for any proposed resource.

(2) The department of environmental quality:

(a) shall review a plan and comment on the need for new resources, the alternatives evaluated to meet the need, the environmental implications of the resource choices, and other related issues that it considers

important. The department shall coordinate and deliver all comments from other executive branch agencies.

(b) may use a plan in the development of studies for a specific energy facility for which an application for a certificate of ~~environmental compatibility and public need~~ compliance is submitted under Title 75, chapter 20.

(3) The consumer counsel shall review and may comment on a plan."

Section 3. Section 75-20-102, MCA, is amended to read:

"75-20-102. Policy and legislative findings. (1) It is the constitutionally declared policy of this state to maintain and improve a clean and healthful environment for present and future generations, to protect the environmental life-support system from degradation and prevent unreasonable depletion and degradation of natural resources, and to provide for administration and enforcement to attain these objectives.

(2) It is also constitutionally declared in the state of Montana that the inalienable rights of the citizens of this state include the right to pursue life's basic necessities, to enjoy and defend life and liberty, to acquire, possess, and protect property, and to seek safety, health, and happiness in all lawful ways. The balancing of these constitutional rights is necessary in order to maintain a sustainable quality of life for all Montanans.

~~(2)~~(3) The legislature finds that the construction of additional electric transmission facilities, pipeline facilities, or geothermal facilities may be necessary to meet the increasing need for electricity, energy, and other products ~~and that these facilities have an effect on the environment, an impact on population concentration, and an effect on the welfare of the citizens of this state~~. Therefore, it is necessary to ensure that the location, construction, and operation of electric transmission facilities, pipeline facilities, or geothermal facilities ~~will not produce unacceptable adverse effects on the environment and upon the citizens of this state by providing~~ are in compliance with state law and that ~~a~~ an electric transmission facility, pipeline facility, or geothermal facility may not be constructed or operated within this state without a certificate of ~~environmental compatibility~~ compliance acquired pursuant to this chapter.

~~(3)~~(4) The legislature also finds that it is the purpose of this chapter to:

(a) ensure protection of the state's environmental resources, including but not limited to air, water, animals, plants, and soils;

(b) ensure consideration of socioeconomic impacts;

(c) provide citizens with the opportunity to participate in facility siting decisions; and

(d) establish a coordinated and efficient method for the processing of all authorizations required for regulated facilities under this chapter."

Section 4. Section 75-20-104, MCA, is amended to read:

"75-20-104. Definitions. In this chapter, unless the context requires otherwise, the following definitions apply:

(1) "Addition thereto" means the installation of new machinery and equipment that would significantly change the conditions under which the facility is operated.

(2) "Application" means an application for a certificate submitted in accordance with this chapter and the rules adopted under this chapter.

(3) "Associated facilities" includes but is not limited to transportation links of any kind, aqueducts, diversion dams, pipelines, transmission substations, storage ponds, reservoirs, and any other device or equipment associated with the delivery of the energy form or product produced by a facility, except that the term does not include a facility or a natural gas or crude oil gathering line 25 inches or less in inside diameter.

(4) "Board" means the board of environmental review provided for in 2-15-3502.

(5) "Certificate" means the certificate of ~~environmental compatibility~~ compliance issued by the department under this chapter that is required for the construction or operation of a facility.

(6) "Commence to construct" means:

(a) any clearing of land, excavation, construction, or other action that would affect the environment of the site or route of a facility but does not mean changes needed for temporary use of sites or routes for nonutility purposes or uses in securing geological data, including necessary borings to ascertain foundation conditions;

(b) the fracturing of underground formations by any means if the activity is related to the possible future development of a gasification facility or a facility employing geothermal resources but does not include the gathering of geological data by boring of test holes or other underground exploration, investigation, or experimentation;

(c) the commencement of eminent domain proceedings under Title 70, chapter 30, for land or rights-of-way upon or over which a facility may be constructed;

(d) the relocation or upgrading of an existing facility defined by subsection (8)(a) or (8)(b), including upgrading to a design capacity covered by subsection (8)(a), except that the term does not include normal maintenance or repair of an existing facility.

(7) "Department" means the department of environmental quality provided for in 2-15-3501.

(8) "Facility" means:

(a) each electric transmission line and associated facilities of a design capacity of more than 69 kilovolts, except that the term:

(i) does not include an electric transmission line and associated facilities of a design capacity of 230 kilovolts or less and 10 miles or less in length; and

(ii) does not include an electric transmission line with a design capacity of more than 69 kilovolts but less than 230 kilovolts for which the person planning to construct the line has obtained right-of-way agreements or options for a right-of-way from more than 75% of the owners who collectively own more than 75% of the property along the centerline;

(b) (i) each pipeline, whether partially or wholly within the state, greater than 25 inches in inside diameter and 50 miles in length, and associated facilities, except that the term does not include:

(A) a pipeline within the boundaries of the state that is used exclusively for the irrigation of agricultural crops or for drinking water; or

(B) a pipeline greater than 25 inches in inside diameter and 50 miles in length for which the person planning to construct the pipeline has obtained right-of-way agreements or options for a right-of-way from more than 75% of the owners who collectively own more than 75% of the property along the centerline;

(ii) each pipeline, whether partially or wholly within the state, greater than 17 inches in inside diameter and 30 miles in length, and associated facilities used to transport coal suspended in water;

(c) any use of geothermal resources, including the use of underground space in existence or to be created, for the creation, use, or conversion of energy, designed for or capable of producing geothermally derived power equivalent to 25 million Btu's per hour or more or any addition thereto, except pollution control facilities approved by the department and added to an existing plant; or

(d) for the purposes of 75-20-204 only, a plant, unit, or other facility capable of generating 50 megawatts of hydroelectric power or more or any addition thereto.

(9) "Person" means any individual, group, firm, partnership, corporation, limited liability company, cooperative, association, government subdivision, government agency, local government, or other organization or entity.

(10) "Transmission substation" means any structure, device, or equipment assemblage, commonly located and designed for voltage regulation, circuit protection, or switching necessary for the construction or operation of a proposed transmission line.

(11) "Utility" means any person engaged in any aspect of the production, storage, sale, delivery, or furnishing of heat, electricity, gas, hydrocarbon products, or energy in any form for ultimate public use."

Section 5. Section 75-20-201, MCA, is amended to read:

"75-20-201. Certificate required -- operation in conformance -- certificate for nuclear facility -- applicability to federal facilities. (1) Except for a facility under diligent onsite physical construction or in operation on January 1, 1973, a person may not commence to construct a facility in the state without first applying for and obtaining a certificate of ~~environmental compatibility~~ compliance issued with respect to the facility by the department.

(2) A facility with respect to which a certificate is issued may not be constructed, operated, or maintained except in conformity with the certificate and any terms, conditions, and modifications contained within the certification.

(3) A certificate may only be issued pursuant to this chapter.

(4) If the department decides to issue a certificate for a nuclear facility, it shall report the recommendation to the applicant and may not issue the certificate until the recommendation is approved by a majority of the voters in a statewide election called by initiative or referendum according to the laws of this state.

(5) A person that proposes to construct an energy-related project that is not defined as a facility pursuant to 75-20-104(8) may petition the department to review the energy-related project under the provisions of this chapter.

(6) This chapter applies, to the fullest extent allowed by federal law, to all federal facilities and to all facilities over which an agency of the federal government has jurisdiction."

Section 6. Section 75-20-211, MCA, is amended to read:

"75-20-211. Application -- filing and contents -- proof of service and notice. (1) (a) An applicant shall file with the department an application for a certificate under this chapter and for the permits required under the laws administered by the department in the form that is required under applicable rules, containing the following information:

(i) a description of the proposed location and of the facility to be built;

(ii) a summary of any preexisting studies that have been made of the ~~environmental~~ impact of the facility;

(iii) for facilities defined in 75-20-104(8)(a) and (8)(b), a statement explaining the need for the facility, a description of reasonable alternate locations for the facility, a general description of the comparative merits and detriments of each location submitted, and a statement of the reasons why the proposed location is best suited for the facility;

(iv) (A) for facilities as defined in 75-20-104(8)(a) and (8)(b), baseline data for the primary and reasonable alternate locations; or

(B) for facilities as defined in 75-20-104(8)(c), baseline data for the proposed location and, at the applicant's option, any alternative locations acceptable to the applicant for siting the facility;

(v) at the applicant's option, an environmental study plan to satisfy the requirements of this chapter; and

(vi) other information that the applicant considers relevant or that the department by order or rule may require.

(b) ~~A~~ If a copy or copies of the studies referred to in subsection (1)(a)(ii) ~~must be~~ are filed with the department, ~~if ordered, and~~ the copy or copies must be available for public inspection.

(2) An application may consist of an application for two or more facilities in combination that are physically and directly attached to each other and are operationally a single operating entity.

~~(3) An application must be accompanied by proof of service of a copy of the application on the chief executive officer of each unit of local government, county commissioner, city or county planning boards, and federal agencies charged with the duty of protecting the environment or of planning land use in the area in which any portion of the proposed facility is proposed or is alternatively proposed to be located and on the following state government agencies:~~

~~(a) environmental quality council;~~

~~(b) department of public service regulation;~~

~~(c) department of fish, wildlife, and parks;~~

~~(d) department of natural resources and conservation;~~

~~(e) department of transportation.~~

~~(4)~~(3) The copy of the application must be accompanied by a notice specifying the date on or about which the application is to be filed.

~~(5)~~(4) An application must also be accompanied by proof that public notice of the application was given to persons residing in the ~~area~~ county in which any portion of the proposed facility is proposed or is alternatively proposed to be located, by publication of a summary of the application in those newspapers that will substantially inform those persons of the application."

Section 7. Section 75-20-213, MCA, is amended to read:

"75-20-213. Supplemental material -- amendments. (1) An application for an amendment of an application or a certificate must be in the form and contain the information that the department by rule or by order prescribes. Notice of an application must be given as set forth in 75-20-211(3) ~~through (5)~~ and (4).

(2) An application may be amended by an applicant any time prior to the department's recommendation.

If the proposed amendment is such that it prevents the department or the agencies listed in 75-20-216(6) from carrying out their duties and responsibilities under this chapter, the department may require additional filing fees and additional amendment application review time. The total review time may not exceed 9 months from the date the department accepts a completed application for amendment. ~~as the department determines necessary, or the department may require a new application and filing fee.~~

(3) The applicant shall submit supplemental material in a timely manner as requested by the department or as offered by the applicant to explain, support, or provide the detail with respect to an item described in the original application, without filing an application for an amendment. The department's determination as to whether information is supplemental or whether an application for amendment is required is conclusive."

Section 8. Section 75-20-215, MCA, is amended to read:

"75-20-215. Filing fee -- accountability -- refund -- use. (1) (a) A filing fee must be deposited in the state special revenue fund for the use of the department in administering Title 75, chapter 1, and this chapter. The applicant shall pay to the department a filing fee as provided in this section based upon the department's estimated costs of processing the application under this chapter. The fee may not exceed the following scale based upon the estimated cost of the facility:

(i) ~~4%~~ 6% of any estimated cost up to $1 million; plus

(ii) 1% of any estimated cost over $1 million and up to ~~$20~~ $5 million; plus

(iii) ~~0.5%~~ 0.8% of any estimated cost over ~~$20~~ $5 million and up to ~~$100~~ $10 million; plus

~~(iv) 0.25% of any amount of estimated cost over $100 million and up to $300 million; plus~~

~~(v) 0.125% of any amount of estimated cost over $300 million and up to $1 billion; plus~~

(iv) 0.5% of any estimated cost over $10 million and up to $20 million; plus

(v) 0.25% of any estimated cost over $20 million and up to $100 million; plus

(vi) 0.125% of any estimated cost over $100 million and up to $500 million; plus

(vii) 0.05% of any estimated cost over $500 million and up to $1 billion; plus

~~(vi)~~(viii) ~~0.05%~~ 0.025% of any ~~amount of~~ estimated cost over $1 billion.

(b) The department may allow in its discretion a credit against the fee payable under this section for the development of information or providing of services required under this chapter or required for preparation of an environmental impact statement or assessment under the Montana or national environmental policy acts. The applicant may submit the information to the department, together with an accounting of the expenses incurred in preparing the information. The department shall evaluate the applicability, validity, and usefulness of the data

and determine the amount that may be credited against the filing fee payable under this section. Upon 30 days' notice to the applicant, this credit may at any time be reduced if the department determines that it is necessary to carry out its responsibilities under this chapter.

(2) (a) The department may contract with an applicant for the development of information, provision of services, and payment of fees required under this chapter. The contract may continue an agreement entered into pursuant to 75-20-106. Payments made to the department under a contract must be credited against the fee payable pursuant to this section. Notwithstanding the provisions of this section, the revenue derived from the filing fee must be sufficient to enable the department, the board, and the agencies listed in 75-20-216(6) to carry out their responsibilities under this chapter. The department may amend a contract to require additional payments for necessary expenses up to the limits set forth in subsection (1)(a) upon 30 days' notice to the applicant. The department and applicant may enter into a contract that exceeds the scale provided in subsection (1)(a).

(b) If a contract is not entered into, the applicant shall pay the filing fee in installments in accordance with a schedule of installments developed by the department, provided that an installment may not exceed 20% of the total filing fee provided for in subsection (1).

(3) The estimated cost of upgrading an existing transmission substation may not be included in the estimated cost of a proposed facility for the purpose of calculating a filing fee.

(4) If an application consists of a combination of two or more facilities, the filing fee must be based on the total estimated cost of the combined facilities.

(5) The applicant is entitled to an accounting of money expended and to a refund with interest at the rate of 6% a year of that portion of the filing fee not expended by the department in carrying out its responsibilities under this chapter. A refund must be made after all administrative and judicial remedies have been exhausted by all parties to the certification proceedings.

(6) The revenue derived from filing fees must be used by the department in compiling the information required for rendering a decision on a certificate and for carrying out its and the board's other responsibilities under this chapter."

Section 9. Section 75-20-216, MCA, is amended to read:

"75-20-216. Study, evaluation, and report on proposed facility -- assistance by other agencies. (1) After receipt of an application, the department shall within 30 days notify the applicant in writing that:

(a) the application is in compliance and is accepted as complete; or

(b) the application is not in compliance and shall list the deficiencies. Upon correction of these

deficiencies and resubmission by the applicant, the department shall within 15 days notify the applicant in writing that the application is in compliance and is accepted as complete.

(2) Upon receipt of an application complying with 75-20-211 through 75-20-213, 75-20-215, and this section, the department shall commence an ~~intensive study and~~ evaluation of the proposed facility and its effects, considering all applicable criteria listed in 75-20-301, and shall issue a decision, opinion, order, certification, or permit as provided in subsection (3). The department shall use, to the extent that it considers applicable, valid and useful existing studies and reports submitted by the applicant or compiled by a state or federal agency.

(3) Except as provided in 75-1-208(4)(b) and 75-20-231, the department shall issue within 9 months following the date of acceptance of an application any decision, opinion, order, certification, or permit required under the laws, other than those contained in this chapter, administered by the department. A decision, opinion, order, certification, or permit, with or without conditions, must be made under those laws. Nevertheless, the department retains authority to make the determination required under 75-20-301(1)(c) or (3). The decision, opinion, order, certification, or permit must be used in the final site selection process. Prior to the issuance of a preliminary decision by the board and pursuant to rules adopted by the department, the department shall provide an opportunity for public review and comment.

(4) Except as provided in 75-1-208(4)(b) and 75-20-231, within 9 months following acceptance of an application for a facility, the department shall issue a report that must contain the department's studies, evaluations, recommendations, other pertinent documents resulting from its study and evaluation~~, and an~~. An environmental impact statement or analysis prepared pursuant to the Montana Environmental Policy Act~~, if any~~ may be included in the department findings if compelling evidence indicates that adverse environmental impacts are likely to result due to the construction and operation of a proposed facility. If the application is for a combination of two or more facilities, the department shall issue its report within the greater of the lengths of time provided for in this subsection for either of the facilities.

(5) For projects subject to joint review by the department and a federal land management agency, the department's certification decision may be timed to correspond to the record of decision issued by the participating federal agency.

(6) The departments of transportation; fish, wildlife, and parks; natural resources and conservation; revenue; and public service regulation shall report to the department information relating to the impact of the proposed site on each department's area of expertise. The report may include opinions as to the advisability of granting, denying, or modifying the certificate. The department shall allocate funds obtained from filing fees to the departments making reports to reimburse them for the costs of compiling information and issuing the required

report."

Section 10. Section 75-20-231, MCA, is amended to read:

"75-20-231. Expedited review. (1) Except as provided in 75-1-208(4)(b), the department shall issue a certification decision within ~~120~~ 90 days from the date on which an application is considered complete for a facility that:

(a) is unlikely to result in significant adverse environmental impacts based on the criteria listed in 75-20-232; or

(b) is presently in existence and proposed for upgrade, reconstruction, or relocation and is unlikely to result in significant impacts pursuant to 75-20-232.

(2) A facility that qualifies for expedited review is exempt from undergoing an alternative siting study, except as provided in 75-1-201."

Section 11. Section 75-20-232, MCA, is amended to read:

"75-20-232. Criteria for identifying proposed facilities that qualify for expedited review. (1) In order for a facility to qualify for expedited review under 75-20-231, the department shall make a significance determination of the impacts associated with a proposed facility. This determination is the basis of the department's decision concerning whether the proposed facility qualifies for expedited review.

(2) The department shall consider the following criteria in determining the significance of each impact that the proposed facility has on the quality of the human environment:

(a) the severity, duration, geographic extent, and frequency of occurrence of the impact;

(b) (i) the probability that the impact will occur if the proposed action occurs; or

(ii) reasonable assurance in keeping with the potential severity of an impact that the impact will not occur;

(c) growth-inducing or growth-inhibiting aspects of the impact, including the relationship or contribution of the impact to cumulative impacts;

(d) the quantity and quality of each environmental resource or value that would be affected, including the uniqueness and fragility of those resources or values;

(e) the importance to the state and to society of each environmental resource or value that would be affected;

(f) any precedent that would be set as a result of an impact of the proposed action that would commit the department to future actions with significant impacts or to a decision in principle about future actions;

(g) potential conflict with local, state, or federal laws, requirements, or formal plans; ~~and~~

(h) the degree to which the impacts on the human environment are likely to create a high level of public concern; and

(i) the economic importance and benefits to the state and the local community of the proposed facility.

(3) An impact may be adverse, beneficial, or both. If none of the adverse effects of the impact are significant, expedited review is required."

Section 12. Section 75-20-301, MCA, is amended to read:

"75-20-301. Decision of department -- findings necessary for certification. (1) Within 30 days after issuance of the report pursuant to 75-20-216 for facilities defined in 75-20-104(8)(a) and (8)(b), the department shall approve a facility as proposed or as modified or an alternative to a proposed facility if the department finds and determines:

(a) the basis of the need for the facility;

(b) the nature of the probable environmental impact;

(c) that the facility minimizes adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives;

(d) in the case of an electric, gas, or liquid transmission line or aqueduct:

(i) what part, if any, of the line or aqueduct will be located underground;

(ii) that the facility is consistent with regional plans for expansion of the appropriate grid of the utility systems serving the state and interconnected utility systems; and

(iii) that the facility will serve the interests of utility system economy and reliability;

(e) that the location of the facility as proposed conforms to applicable state and local laws and regulations, except that the department may refuse to apply any local law or regulation if it finds that, as applied to the proposed facility, the law or regulation is unreasonably restrictive in view of the existing technology, of factors of cost or economics, or of the needs of consumers, whether located inside or outside the directly affected government subdivisions;

(f) that the facility will serve the public interest, convenience, and necessity;

(g) that the department or board has issued any necessary air or water quality decision, opinion, order, certification, or permit as required by 75-20-216(3); and

(h) that the use of public lands for location of the facility was evaluated and public lands were selected whenever their use is as economically practicable as the use of private lands.

(2) In determining that the facility will serve the public interest, convenience, and necessity under subsection (1)(f), the department shall consider:

(a) the items listed in subsections (1)(a) and (1)(b);

(b) the benefits to the applicant and the state resulting from the proposed facility;

(c) the effects of the economic activity resulting from the proposed facility;

(d) the effects of the proposed facility on the public health, welfare, and safety;

(e) any other factors that it considers relevant.

(3) Within 30 days after issuance of the report pursuant to 75-20-216 for a facility defined in 75-20-104(8)(c), the department shall approve a facility as proposed or as modified or an alternative to a proposed facility if the department finds and determines:

(a) that the facility or alternative incorporates all reasonable, cost-effective mitigation of significant environmental impacts; ~~or~~ and

(b) that unmitigated impacts, including those that cannot be reasonably quantified or valued in monetary terms, ~~do not pose any threat of serious injury or damage to~~ will not result in:

(i) a violation of a law or standard that protects the environment; or

~~(ii) the social and economic conditions of inhabitants of the affected area; or~~

~~(iii)~~(ii) a violation of a law or standard that protects the public health~~,~~ and safety~~, or welfare of area inhabitants~~.

(4) For facilities defined in 77-20-104(8), if the department cannot make the findings required in ~~75-20-301~~ this section, it shall deny the certificate."

Section 13. Section 75-20-303, MCA, is amended to read:

"75-20-303. Opinion issued with decision -- contents. (1) In rendering a decision on an application for a certificate, the department shall issue an opinion stating its reasons for the action taken.

(2) If the department has found that any regional or local law or regulation that would be otherwise applicable is unreasonably restrictive, it shall state in its opinion the reasons that it is unreasonably restrictive.

(3) A certificate issued by the department must include the following:

(a) an environmental evaluation statement related to the facility being certified. The statement must include but is not limited to analysis of the following information:

(i) the environmental impact of the proposed facility; and

(ii) any adverse environmental effects that cannot be avoided by issuance of the certificate;

(b) a plan for monitoring environmental effects of the proposed facility;

(c) a plan for monitoring the certified facility site between the time of certification and completion of construction;

(d) a time limit as provided in subsection (4); and

(e) a statement signed by the applicant showing agreement to comply with the requirements of this chapter and the conditions of the certificate.

(4) (a) The department shall issue as part of the certificate the following time limits:

(i) For a facility as defined in 75-20-104(8)(a) that is more than 30 miles in length and for a facility defined in 75-20-104(8)(b), construction must be completed within 10 years.

(ii) For a facility as defined in 75-20-104(8)(a) that is 30 miles or less in length, construction must be completed within 5 years.

(iii) For a facility as defined in 75-20-104(8)(c), construction must begin within 6 years and continue with due diligence in accordance with preliminary construction plans established in the certificate.

(b) Unless extended, a certificate lapses and is void if the facility is not constructed or if construction of the facility is not commenced within the time limits provided in this section.

(c) The time limit may be extended for a reasonable period upon a showing by the applicant to the department that a good faith effort is being undertaken to complete construction under subsections (4)(a)(i) and (4)(a)(ii). Under this subsection, a good faith effort includes the process of acquiring any necessary state or federal permit or certificate for the facility and the process of judicial review of a permit or certificate.

(d) Construction may begin immediately upon issuance of a certificate unless the department finds that there is substantial and convincing evidence that a delay in the commencement of construction is necessary and should be established for a particular facility."

Section 14. Section 85-2-124, MCA, is amended to read:

"85-2-124. Fees for environmental impact statements. (1) Whenever the department determines that the filing of an application ~~(~~or a combination of applications~~)~~ for a permit or approval under this chapter requires the preparation of an environmental impact statement as prescribed by the Montana Environmental Policy Act and the application ~~(~~or combination of applications~~)~~ involves the use of 4,000 or more acre-feet per year and 5.5 or more cubic feet per second of water, the applicant shall pay to the department the fee prescribed in this section. The department shall notify the applicant in writing within 90 days of receipt of a correct and complete application ~~(~~or a combination of applications~~)~~ if it determines that an environmental impact statement and fee is

required.

(2) Upon notification by the department under subsection (1), the applicant shall pay a fee based upon the estimated cost of constructing, repairing, or changing the appropriation and diversion facilities as ~~herein~~ provided in this section. The maximum fee that ~~shall~~ must be paid to the department may not exceed the fees set forth in the following declining scale: 2% of the estimated cost up to $1 million; plus 1% of the estimated cost over $1 million and up to $20 million; plus 1/2 of 1% of the estimated cost over $20 million and up to $100 million; plus 1/4 of 1% of the estimated cost over $100 million and up to $300 million; plus 1/8 of 1% of the estimated cost over $300 million. The fee ~~shall~~ must be deposited in the state special revenue fund to be used by the department only to comply with the Montana Environmental Policy Act in connection with the ~~application(s)~~ application or applications. Any amounts paid by the applicant but not actually expended by the department ~~shall~~ must be refunded to the applicant.

(3) The department and the applicant may determine by agreement the estimated cost of any facility for purposes of computing the amount of the fee to be paid to the department by the applicant. The department may contract with an applicant for:

(a) the development of information by the applicant or a third party on behalf of the department and the applicant concerning the environmental impact of any proposed activity under an application;

(b) the division of responsibility between the department and an applicant for supervision over, control of, and payment for the development of information by the applicant or a third party on behalf of the department and the applicant under any ~~such~~ contract ~~or contracts~~;

(c) the use or nonuse of a fee or any part ~~thereof~~ of a fee paid to the department by an applicant.

(4) Any payments made to the department or any third party by an applicant under any ~~such~~ contract ~~or contracts shall~~ must be credited against any fee that the applicant ~~must~~ is required to pay ~~hereunder~~ under this section. The department and the applicant may agree on additional credits against the fee for environmental work performed by the applicant at the applicant's own expense.

(5) ~~No~~ A fee as prescribed by this section may not be assessed against an applicant for a permit or approval if the applicant has also filed an application for a certificate of ~~environmental compatibility or public need~~ compliance pursuant to the Montana Major Facility Siting Act and the appropriation or use of water involved in the ~~application(s)~~ application or applications for permit or approval has been or will be studied by the department pursuant to that act.

(6) This section ~~shall apply~~ applies to all applications, pending or ~~hereinafter~~ filed, for which the department has not~~, as of April 9, 1975,~~ commenced writing an environmental impact statement. This section

~~shall~~ does not apply to any application~~,~~ if the fee for ~~which~~ the application would not exceed $2,500.

(7) Failure to submit the fee as required by this section ~~shall void~~ voids the ~~application(s)~~ application or applications.

(8) The department may in its discretion rely upon the environmental studies, investigations, reports, and assessments made by any other state agency or any person, including any applicant, in the preparation of its environmental impact statement."

Section 15. Section 85-2-607, MCA, is amended to read:

"85-2-607. Utility facilities. This part does not apply to applications to appropriate water for use by a utility facility for which a certificate of ~~environmental compatibility and public need~~ compliance is granted pursuant to the Montana Major Facility Siting Act."

Section 16. Section 85-15-107, MCA, is amended to read:

"85-15-107. Exemptions. (1) The provisions of 85-15-108 through 85-15-110, 85-15-209 through 85-15-216, 85-15-305, 85-15-401, 85-15-502, and 85-15-503 do not apply to:

(a) dams subject to a permit issued pursuant to 82-4-335 for the period during which the dam is subject to the permit;

(b) federal dams and reservoirs;

(c) dams and reservoirs licensed and subject to inspection by the federal energy regulatory commission; or

(d) dams that are required to obtain a certificate of ~~environmental compatibility and public need~~ compliance pursuant to 75-20-201 for the period during which the dam is subject to the certificate.

(2) The provisions of 85-15-108 through 85-15-110, 85-15-209 through 85-15-216, 85-15-401, 85-15-502, and 85-15-503 do not apply to nonfederal dams and reservoirs located on federal lands if they are subject to a dam safety review by a federal agency.

(3) The provisions of 85-15-305 do not apply to dams and reservoirs at a national priority list site as defined by the federal Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), Public Law 96-510."

Section 17. Section 90-6-207, MCA, is amended to read:

"90-6-207. Priorities for impact grants. (1) The department of commerce shall biennially designate:

(a) each county, incorporated city and town, school district, and other governmental unit that has had or expects to have as a result of the impact of coal development a net increase or decrease in estimated population of at least 10% over one of the 3-year periods specified in subsection (4);

(b) each county and all local governmental units within each county in which:

(i) a mining permit in accordance with the Montana Strip and Underground Mine Reclamation Act has been granted by the department of environmental quality for a project within the county that will establish a new coal mine to produce at least 300,000 tons a year and that the department of commerce determines will commence production within 2 years;

(ii) the department of commerce has determined that the production of an existing mine will increase or decrease by at least 1 million tons a year and that the new, expanded, or reduced production will commence within 2 years of the designation;

(iii) a newly constructed railroad serves a new, existing, or expanding coal mine; or

(iv) ~~a certificate of environmental compatibility and public need in accordance with the Montana Major Facility Siting Act has been granted by the board of environmental review~~ an air quality permit has been issued by the department of environmental quality for a new steam-generating or other new coal-burning facility that will consume at least 1 million tons a year of Montana-mined coal and for which the department of commerce determines the construction or operation will commence within 2 years of the designation;

(c) each local governmental unit located within 100 miles, measured over the shortest all-weather public road, of a mine or facility qualifying under subsection (1)(b)(i), (1)(b)(ii), or (1)(b)(iv); and

(d) each local governmental unit in which:

(i) a mine that has produced 300,000 tons or more of coal a year has ceased all significant mining or is scheduled to cease within 1 year; or

(ii) a steam-generating or other coal-burning facility that has operated under ~~a certificate of environmental compatibility and public need in accordance with the Montana Major Facility Siting Act~~ an air quality permit issued by the department of environmental quality and that has consumed at least 1 million tons of Montana-mined coal a year has closed or is scheduled to close within 1 year.

(2) Designation under subsection (1) of:

(a) any local governmental unit extends to and includes as a designated unit the county in which it is located; and

(b) a county extends to and includes as a designated unit any local governmental unit in the county that contains at least 10% of the total population of the county.

(3) Except as provided in 90-6-205(4)(b), the board may not award more than 50% of the funds appropriated to it each year for grants to governmental units and state agencies for meeting the needs caused by an increase or decrease in coal development or in the consumption of coal by a coal-using energy complex to local governmental units other than those governmental units designated under subsection (1).

(4) For the purposes of subsection (1), the department of commerce shall use five 3-year periods as follows:

(a) one consecutive 3-year period ending 2 calendar years prior to the current calendar year;

(b) one consecutive 3-year period ending 1 calendar year prior to the current calendar year;

(c) one consecutive 3-year period ending with the current calendar year;

(d) one consecutive 3-year period ending 1 calendar year after the current calendar year; and

(e) one consecutive 3-year period ending 2 calendar years after the current calendar year.

(5) Attention should be given by the board to the need for community planning before the full impact is realized. Applicants should be able to show how their request reasonably fits into an overall plan for the orderly management of the existing or contemplated growth or decline problems.

(6) All funds appropriated under this part are for use related to local impact.

(7) All designations based on an increase in coal development or in the consumption of coal by a coal-using energy complex made under subsection (1)(a), (1)(b), or (1)(c) must be for 1 year. A designation may not continue after the department of commerce determines that the mine, railroad, or facility that provided the basis for a designation is contributing sufficient tax revenue to the designated governmental unit to meet the increased costs of providing the services necessitated by the development of the mine, railroad, or facility. However, nondesignated local governmental units continue to be eligible for coal impact grants of not more than 50% of the funds appropriated to the board for grants in circumstances in which an impact exists in a community or area directly affected by:

(a) the operation of a coal mine or a coal-using energy complex; or

(b) the cessation or reduction of coal mining activity or of the operation of a coal-using energy complex."

NEW SECTION. **Section 18. Saving clause.** [This act] does not affect rights and duties that matured, penalties that were incurred, or proceedings that were begun before [the effective date of this act].

NEW SECTION. **Section 19. Severability.** If a part of [this act] is invalid, all valid parts that are severable from the invalid part remain in effect. If a part of [this act] is invalid in one or more of its applications,

the part remains in effect in all valid applications that are severable from the invalid applications.

NEW SECTION. **Section 20. Effective date.** [This act] is effective on passage and approval.

- END -

HOUSE BILL NO. 443

INTRODUCED BY LANGE, A. OLSON

A BILL FOR AN ACT ENTITLED: "AN ACT GENERALLY REVISING THE MONTANA MAJOR FACILITY SITING ACT; CLARIFYING THE POLICY OF THE MONTANA MAJOR FACILITY SITING ACT; MODIFYING THE DEFINITION OF "CERTIFICATE"; MODIFYING THE INFORMATION REQUIREMENTS FOR APPLICATIONS; ELIMINATING THE REQUIREMENT THAT A COPY OF AN APPLICATION BE SENT TO OTHER LOCAL, STATE, AND FEDERAL GOVERNMENTAL ENTITIES; MODIFYING PUBLIC NOTICE REQUIREMENTS; REVISING THE FILING FEE SCALE; REDUCING CERTAIN TIME REQUIREMENTS OF THE SITING LAWS; QUALIFYING THE USE OF MONTANA ENVIRONMENTAL POLICY ACT DOCUMENTS; INCLUDING ECONOMIC IMPORTANCE AND BENEFITS IN DETERMINING THE SIGNIFICANCE OF A FACILITY'S IMPACT; REVISING THE DEPARTMENT'S APPROVAL CRITERIA FOR CERTAIN FACILITIES; CLARIFYING REQUIREMENTS FOR COMMENCEMENT OF CONSTRUCTION; AMENDING SECTIONS 7-1-111, 69-3-1205, 75-20-102, 75-20-104, 75-20-201, 75-20-211, 75-20-213, 75-20-215, 75-20-216, 75-20-223, 75-20-231, 75-20-232, 75-20-301, 75-20-303, 85-2-124, 85-2-607, 85-15-107, AND 90-6-207, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:

Section 1. Section 7-1-111, MCA, is amended to read:

"7-1-111. Powers denied. A local government unit with self-government powers is prohibited from exercising the following:

(1) any power that applies to or affects any private or civil relationship, except as an incident to the exercise of an independent self-government power;

(2) any power that applies to or affects the provisions of 7-33-4128 or Title 39 (labor, collective bargaining for public employees, unemployment compensation, or workers' compensation), except that subject to those provisions, it may exercise any power of a public employer with regard to its employees;

(3) any power that applies to or affects the public school system, except that a local unit may impose an assessment reasonably related to the cost of any service or special benefit provided by the unit and shall exercise any power that it is required by law to exercise regarding the public school system;

(4) any power that prohibits the grant or denial of a certificate of public convenience and necessity;

(5) any power that establishes a rate or price otherwise determined by a state agency;

(6) any power that applies to or affects any determination of the department of environmental quality with regard to any mining plan, permit, or contract;

(7) any power that applies to or affects any determination by the department of environmental quality with regard to a certificate of ~~environmental compatibility and public need~~ compliance;

(8) any power that defines as an offense conduct made criminal by state statute, that defines an offense as a felony, or that fixes the penalty or sentence for a misdemeanor in excess of a fine of $500, 6 months' imprisonment, or both, except as specifically authorized by statute;

(9) any power that applies to or affects the right to keep or bear arms, except that a local government has the power to regulate the carrying of concealed weapons;

(10) any power that applies to or affects a public employee's pension or retirement rights as established by state law, except that a local government may establish additional pension or retirement systems;

(11) any power that applies to or affects the standards of professional or occupational competence established pursuant to Title 37 (professions and occupations) as prerequisites to the carrying on of a profession or occupation;

(12) any power that applies to or affects Title 75, chapter 7, part 1 (streambeds), or Title 87 (fish and wildlife); and

(13) any power that applies to or affects landlords, as defined in 70-24-103, when that power is intended to license landlords or to regulate their activities with regard to tenants beyond what is provided in Title 70, chapters 24 and 25. This subsection is not intended to restrict a local government's ability to require landlords to comply with ordinances or provisions that are applicable to all other businesses or residences within the local government's jurisdiction."

Section 2. Section 69-3-1205, MCA, is amended to read:

"69-3-1205. Public comment. (1) The commission shall conduct a public meeting for the purpose of receiving comment on a plan. The commission or the department of public service regulation may comment on the plan. A comment by the commission or the department may not be construed as preapproval by the commission of rate treatment for any proposed resource.

(2) The department of environmental quality:

(a) shall review a plan and comment on the need for new resources, the alternatives evaluated to meet the need, the environmental implications of the resource choices, and other related issues that it considers important. The department shall coordinate and deliver all comments from other executive branch agencies.

(b) may use a plan in the development of studies for a specific energy facility for which an application for a certificate of ~~environmental compatibility and public need~~ compliance is submitted under Title 75, chapter 20.

(3) The consumer counsel shall review and may comment on a plan."

Section 3. Section 75-20-102, MCA, is amended to read:

"75-20-102. Policy and legislative findings. (1) It is the constitutionally declared policy of this state to maintain and improve a clean and healthful environment for present and future generations, to protect the environmental life-support system from degradation and prevent unreasonable depletion and degradation of natural resources, and to provide for administration and enforcement to attain these objectives.

(2) It is also constitutionally declared in the state of Montana that the inalienable rights of the citizens of this state include the right to pursue life's basic necessities, to enjoy and defend life and liberty, to acquire, possess, and protect property, and to seek safety, health, and happiness in all lawful ways. The balancing of these constitutional rights is necessary in order to maintain a sustainable quality of life for all Montanans.

~~(2)~~(3) The legislature finds that the construction of additional electric transmission facilities, pipeline facilities, or geothermal facilities may be necessary to meet the increasing need for electricity, energy, and other products ~~and that these facilities have an effect on the environment, an impact on population concentration, and an effect on the welfare of the citizens of this state~~. Therefore, it is necessary to ensure that the location, construction, and operation of electric transmission facilities, pipeline facilities, or geothermal facilities ~~will not produce unacceptable adverse effects on the environment and upon the citizens of this state by providing~~ are in compliance with state law and that ~~a~~ an electric transmission facility, pipeline facility, or geothermal facility may not be constructed or operated within this state without a certificate of ~~environmental compatibility~~ compliance acquired pursuant to this chapter.

~~(3)~~(4) The legislature also finds that it is the purpose of this chapter to:

(a) ensure protection of the state's environmental resources, including but not limited to air, water, animals, plants, and soils;

(b) ensure consideration of socioeconomic impacts;

(c) provide citizens with the opportunity to participate in facility siting decisions; and

(d) establish a coordinated and efficient method for the processing of all authorizations required for regulated facilities under this chapter."

Section 4. Section 75-20-104, MCA, is amended to read:

"75-20-104. Definitions. In this chapter, unless the context requires otherwise, the following definitions apply:

(1) "Addition thereto" means the installation of new machinery and equipment that would significantly change the conditions under which the facility is operated.

(2) "Application" means an application for a certificate submitted in accordance with this chapter and the rules adopted under this chapter.

(3) "Associated facilities" includes but is not limited to transportation links of any kind, aqueducts, diversion dams, pipelines, transmission substations, storage ponds, reservoirs, and any other device or equipment associated with the delivery of the energy form or product produced by a facility, except that the term does not include a facility or a natural gas or crude oil gathering line 25 inches or less in inside diameter.

(4) "Board" means the board of environmental review provided for in 2-15-3502.

(5) "Certificate" means the certificate of ~~environmental compatibility~~ compliance issued by the department under this chapter that is required for the construction or operation of a facility.

(6) "Commence to construct" means:

(a) any clearing of land, excavation, construction, or other action that would affect the environment of the site or route of a facility but does not mean changes needed for temporary use of sites or routes for nonutility purposes or uses in securing geological data, including necessary borings to ascertain foundation conditions;

(b) the fracturing of underground formations by any means if the activity is related to the possible future development of a gasification facility or a facility employing geothermal resources but does not include the gathering of geological data by boring of test holes or other underground exploration, investigation, or experimentation;

(c) the commencement of eminent domain proceedings under Title 70, chapter 30, for land or rights-of-way upon or over which a facility may be constructed;

(d) the relocation or upgrading of an existing facility defined by subsection (8)(a) or (8)(b), including upgrading to a design capacity covered by subsection (8)(a), except that the term does not include normal

maintenance or repair of an existing facility.

(7) "Department" means the department of environmental quality provided for in 2-15-3501.

(8) "Facility" means:

(a) each electric transmission line and associated facilities of a design capacity of more than 69 kilovolts, except that the term:

(i) does not include an electric transmission line and associated facilities of a design capacity of 230 kilovolts or less and 10 miles or less in length; and

(ii) does not include an electric transmission line with a design capacity of more than 69 kilovolts but less than 230 kilovolts for which the person planning to construct the line has obtained right-of-way agreements or options for a right-of-way from more than 75% of the owners who collectively own more than 75% of the property along the centerline;

(b) (i) each pipeline, whether partially or wholly within the state, greater than 25 inches in inside diameter and 50 miles in length, and associated facilities, except that the term does not include:

(A) a pipeline within the boundaries of the state that is used exclusively for the irrigation of agricultural crops or for drinking water; or

(B) a pipeline greater than 25 inches in inside diameter and 50 miles in length for which the person planning to construct the pipeline has obtained right-of-way agreements or options for a right-of-way from more than 75% of the owners who collectively own more than 75% of the property along the centerline;

(ii) each pipeline, whether partially or wholly within the state, greater than 17 inches in inside diameter and 30 miles in length, and associated facilities used to transport coal suspended in water;

(c) any use of geothermal resources, including the use of underground space in existence or to be created, for the creation, use, or conversion of energy, designed for or capable of producing geothermally derived power equivalent to 25 million Btu's per hour or more or any addition thereto, except pollution control facilities approved by the department and added to an existing plant; or

(d) for the purposes of 75-20-204 only, a plant, unit, or other facility capable of generating 50 megawatts of hydroelectric power or more or any addition thereto.

(9) "Person" means any individual, group, firm, partnership, corporation, limited liability company, cooperative, association, government subdivision, government agency, local government, or other organization or entity.

(10) "Transmission substation" means any structure, device, or equipment assemblage, commonly

located and designed for voltage regulation, circuit protection, or switching necessary for the construction or operation of a proposed transmission line.

(11) "Utility" means any person engaged in any aspect of the production, storage, sale, delivery, or furnishing of heat, electricity, gas, hydrocarbon products, or energy in any form for ultimate public use."

Section 5. Section 75-20-201, MCA, is amended to read:

"75-20-201. Certificate required -- operation in conformance -- certificate for nuclear facility -- applicability to federal facilities. (1) Except for a facility under diligent onsite physical construction or in operation on January 1, 1973, a person may not commence to construct a facility in the state without first applying for and obtaining a certificate of ~~environmental compatibility~~ compliance issued with respect to the facility by the department.

(2) A facility with respect to which a certificate is issued may not be constructed, operated, or maintained except in conformity with the certificate and any terms, conditions, and modifications contained within the certification.

(3) A certificate may only be issued pursuant to this chapter.

(4) If the department decides to issue a certificate for a nuclear facility, it shall report the recommendation to the applicant and may not issue the certificate until the recommendation is approved by a majority of the voters in a statewide election called by initiative or referendum according to the laws of this state.

(5) A person that proposes to construct an energy-related project that is not defined as a facility pursuant to 75-20-104(8) may petition the department to review the energy-related project under the provisions of this chapter.

(6) This chapter applies, to the fullest extent allowed by federal law, to all federal facilities and to all facilities over which an agency of the federal government has jurisdiction."

Section 6. Section 75-20-211, MCA, is amended to read:

"75-20-211. Application -- filing and contents -- proof of service and notice. (1) (a) An applicant shall file with the department an application for a certificate under this chapter and for the permits required under the laws administered by the department in the form that is required under applicable rules, containing the following information:

(i) a description of the proposed location and of the facility to be built;

(ii) a summary of any preexisting studies that have been made of the ~~environmental~~ impact of the facility;

(iii) for facilities defined in 75-20-104(8)(a) and (8)(b), a statement explaining the need for the facility, a description of reasonable alternate locations for the facility, a general description of the comparative merits and detriments of each location submitted, and a statement of the reasons why the proposed location is best suited for the facility;

(iv) (A) for facilities as defined in 75-20-104(8)(a) and (8)(b), baseline data for the primary and reasonable alternate locations; or

(B) for facilities as defined in 75-20-104(8)(c), baseline data for the proposed location and, at the applicant's option, any alternative locations acceptable to the applicant for siting the facility;

(v) at the applicant's option, an environmental study plan to satisfy the requirements of this chapter; and

(vi) other information that the applicant considers relevant or that the department by order or rule may require.

(b) ~~A~~ If a copy or copies of the studies referred to in subsection (1)(a)(ii) ~~must be~~ are filed with the department, ~~if ordered, and~~ the copy or copies must be available for public inspection.

(2) An application may consist of an application for two or more facilities in combination that are physically and directly attached to each other and are operationally a single operating entity.

~~(3) An application must be accompanied by proof of service of a copy of the application on the chief executive officer of each unit of local government, county commissioner, city or county planning boards, and federal agencies charged with the duty of protecting the environment or of planning land use in the area in which any portion of the proposed facility is proposed or is alternatively proposed to be located and on the following state government agencies:~~

~~(a) environmental quality council;~~

~~(b) department of public service regulation;~~

~~(c) department of fish, wildlife, and parks;~~

~~(d) department of natural resources and conservation;~~

~~(e) department of transportation.~~

~~(4)~~(3) The copy of the application must be accompanied by a notice specifying the date on or about which the application is to be filed.

~~(5)~~(4) An application must also be accompanied by proof that public notice of the application was given to persons residing in the ~~area~~ county in which any portion of the proposed facility is proposed or is alternatively

proposed to be located, by publication of a summary of the application in those newspapers that will substantially inform those persons of the application."

Section 7. Section 75-20-213, MCA, is amended to read:

"75-20-213. Supplemental material -- amendments. (1) An application for an amendment of an application or a certificate must be in the form and contain the information that the department by rule or by order prescribes. Notice of an application must be given as set forth in 75-20-211(3) ~~through (5)~~ and (4).

(2) An application may be amended by an applicant any time prior to the department's recommendation. If the proposed amendment is such that it prevents the department or the agencies listed in 75-20-216(6) from carrying out their duties and responsibilities under this chapter, the department may require additional filing fees and additional amendment application review time. The total review time may not exceed 9 months from the date the department accepts a completed application for amendment. ~~as the department determines necessary, or the department may require a new application and filing fee.~~

(3) The applicant shall submit supplemental material in a timely manner as requested by the department or as offered by the applicant to explain, support, or provide the detail with respect to an item described in the original application, without filing an application for an amendment. The department's determination as to whether information is supplemental or whether an application for amendment is required is conclusive."

Section 8. Section 75-20-215, MCA, is amended to read:

"75-20-215. Filing fee -- accountability -- refund -- use. (1) (a) A filing fee must be deposited in the state special revenue fund for the use of the department in administering Title 75, chapter 1, and this chapter. The applicant shall pay to the department a filing fee as provided in this section based upon the department's estimated costs of processing the application under this chapter. The fee may not exceed the following scale based upon the estimated cost of the facility:

(i) ~~4%~~ 6% of any estimated cost up to $1 million; plus

(ii) 1% of any estimated cost over $1 million and up to ~~$20~~ $5 million; plus

(iii) ~~0.5%~~ 0.8% of any estimated cost over ~~$20~~ $5 million and up to ~~$100~~ $10 million; plus

~~(iv) 0.25% of any amount of estimated cost over $100 million and up to $300 million; plus~~

~~(v) 0.125% of any amount of estimated cost over $300 million and up to $1 billion; plus~~

(iv) 0.5% of any estimated cost over $10 million and up to $20 million; plus

(v) 0.25% of any estimated cost over $20 million and up to $100 million; plus

(vi) 0.125% of any estimated cost over $100 million and up to $500 million; plus

(vii) 0.05% of any estimated cost over $500 million and up to $1 billion; plus

~~(vi)~~(viii) ~~0.05%~~ 0.025% of any ~~amount of~~ estimated cost over $1 billion.

(b) The department may allow in its discretion a credit against the fee payable under this section for the development of information or providing of services required under this chapter or required for preparation of an environmental impact statement or assessment under the Montana or national environmental policy acts. The applicant may submit the information to the department, together with an accounting of the expenses incurred in preparing the information. The department shall evaluate the applicability, validity, and usefulness of the data and determine the amount that may be credited against the filing fee payable under this section. Upon 30 days' notice to the applicant, this credit may at any time be reduced if the department determines that it is necessary to carry out its responsibilities under this chapter.

(2) (a) The department may contract with an applicant for the development of information, provision of services, and payment of fees required under this chapter. The contract may continue an agreement entered into pursuant to 75-20-106. Payments made to the department under a contract must be credited against the fee payable pursuant to this section. Notwithstanding the provisions of this section, the revenue derived from the filing fee must be sufficient to enable the department, the board, and the agencies listed in 75-20-216(6) to carry out their responsibilities under this chapter. The department may amend a contract to require additional payments for necessary expenses up to the limits set forth in subsection (1)(a) upon 30 days' notice to the applicant. The department and applicant may enter into a contract that exceeds the scale provided in subsection (1)(a).

(b) If a contract is not entered into, the applicant shall pay the filing fee in installments in accordance with a schedule of installments developed by the department, provided that an installment may not exceed 20% of the total filing fee provided for in subsection (1).

(3) The estimated cost of upgrading an existing transmission substation may not be included in the estimated cost of a proposed facility for the purpose of calculating a filing fee.

(4) If an application consists of a combination of two or more facilities, the filing fee must be based on the total estimated cost of the combined facilities.

(5) The applicant is entitled to an accounting of money expended and to a refund with interest at the rate of 6% a year of that portion of the filing fee not expended by the department in carrying out its

responsibilities under this chapter. A refund must be made after all administrative and judicial remedies have been exhausted by all parties to the certification proceedings.

(6) The revenue derived from filing fees must be used by the department in compiling the information required for rendering a decision on a certificate and for carrying out its and the board's other responsibilities under this chapter."

Section 9. Section 75-20-216, MCA, is amended to read:

"75-20-216. Study, evaluation, and report on proposed facility -- assistance by other agencies. (1) After receipt of an application, the department shall within 30 days notify the applicant in writing that:

(a) the application is in compliance and is accepted as complete; or

(b) the application is not in compliance and shall list the deficiencies. Upon correction of these deficiencies and resubmission by the applicant, the department shall within 15 days notify the applicant in writing that the application is in compliance and is accepted as complete.

(2) Upon receipt of an application complying with 75-20-211 through 75-20-213, 75-20-215, and this section, the department shall commence an ~~intensive study and~~ evaluation of the proposed facility and its effects, considering all applicable criteria listed in 75-20-301, and shall issue a decision, opinion, order, certification, or permit as provided in subsection (3). The department shall use, to the extent that it considers applicable, valid and useful existing studies and reports submitted by the applicant or compiled by a state or federal agency.

(3) Except as provided in 75-1-208(4)(b) and 75-20-231, the department shall issue within 9 months following the date of acceptance of an application any decision, opinion, order, certification, or permit required under the laws, other than those contained in this chapter, administered by the department. A decision, opinion, order, certification, or permit, with or without conditions, must be made under those laws. Nevertheless, the department retains authority to make the determination required under 75-20-301(1)(c) or (3). The decision, opinion, order, certification, or permit must be used in the final site selection process. Prior to the issuance of a preliminary decision by the board and pursuant to rules adopted by the department, the department shall provide an opportunity for public review and comment.

(4) Except as provided in 75-1-208(4)(b) and 75-20-231, within 9 months following acceptance of an application for a facility, the department shall issue a report that must contain the department's studies, evaluations, recommendations, other pertinent documents resulting from its study and evaluation~~, and an~~. An

environmental impact statement or analysis prepared pursuant to the Montana Environmental Policy Act~~, if any~~ may be included in the department findings if compelling evidence indicates that adverse environmental impacts are likely to result due to the construction and operation of a proposed facility. If the application is for a combination of two or more facilities, the department shall issue its report within the greater of the lengths of time provided for in this subsection for either of the facilities.

(5) For projects subject to joint review by the department and a federal land management agency, the department's certification decision may be timed to correspond to the record of decision issued by the participating federal agency.

(6) The departments of transportation; fish, wildlife, and parks; natural resources and conservation; revenue; and public service regulation shall report to the department information relating to the impact of the proposed site on each department's area of expertise. The report may include opinions as to the advisability of granting, denying, or modifying the certificate. The department shall allocate funds obtained from filing fees to the departments making reports to reimburse them for the costs of compiling information and issuing the required report."

SECTION 10. SECTION 75-20-223, MCA, IS AMENDED TO READ:

"75-20-223. Board review of department decisions. (1) A person aggrieved by the final decision of the department on an application for a certificate or the issuance of an air or water quality decision, opinion, order, certification, or permit under this chapter may within 30 days appeal the decision to the board under the contested case procedures of Title 2, chapter 4, part 6.

(2) A person aggrieved by the final decision of the department on an application for amendment of a certificate may within 15 days appeal the decision to the board under the contested case procedures of Title 2, chapter 4, part 6.

(3) A person aggrieved by the department's decision not to include an environmental impact statement or analysis in the department's findings pursuant to 75-20-216 may within 30 days appeal the decision to the board under the contested case procedures of Title 2, chapter 4, part 6."

Section 11. Section 75-20-231, MCA, is amended to read:

"75-20-231. Expedited review. (1) Except as provided in 75-1-208(4)(b), the department shall issue a certification decision within ~~120~~ 90 days from the date on which an application is considered complete for a

facility that:

(a) is unlikely to result in significant adverse environmental impacts based on the criteria listed in 75-20-232; or

(b) is presently in existence and proposed for upgrade, reconstruction, or relocation and is unlikely to result in significant impacts pursuant to 75-20-232.

(2) A facility that qualifies for expedited review is exempt from undergoing an alternative siting study, except as provided in 75-1-201."

Section 12. Section 75-20-232, MCA, is amended to read:

"75-20-232. Criteria for identifying proposed facilities that qualify for expedited review. (1) In order for a facility to qualify for expedited review under 75-20-231, the department shall make a significance determination of the impacts associated with a proposed facility. This determination is the basis of the department's decision concerning whether the proposed facility qualifies for expedited review.

(2) The department shall consider the following criteria in determining the significance of each impact that the proposed facility has on the quality of the human environment:

(a) the severity, duration, geographic extent, and frequency of occurrence of the impact;

(b) (i) the probability that the impact will occur if the proposed action occurs; or

(ii) reasonable assurance in keeping with the potential severity of an impact that the impact will not occur;

(c) growth-inducing or growth-inhibiting aspects of the impact, including the relationship or contribution of the impact to cumulative impacts;

(d) the quantity and quality of each environmental resource or value that would be affected, including the uniqueness and fragility of those resources or values;

(e) the importance to the state and to society of each environmental resource or value that would be affected;

(f) any precedent that would be set as a result of an impact of the proposed action that would commit the department to future actions with significant impacts or to a decision in principle about future actions;

(g) potential conflict with local, state, or federal laws, requirements, or formal plans; ~~and~~

(h) the degree to which the impacts on the human environment are likely to create a high level of public concern; and

(i) the economic importance and benefits to the state and the local community of the proposed facility.

(3) An impact may be adverse, beneficial, or both. If none of the adverse effects of the impact are significant, expedited review is required."

Section 13. Section 75-20-301, MCA, is amended to read:

"75-20-301. Decision of department -- findings necessary for certification. (1) Within 30 days after issuance of the report pursuant to 75-20-216 for facilities defined in 75-20-104(8)(a) and (8)(b), the department shall approve a facility as proposed or as modified or an alternative to a proposed facility if the department finds and determines:

(a) the basis of the need for the facility;

(b) the nature of the probable environmental impact;

(c) that the facility minimizes adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives;

(d) in the case of an electric, gas, or liquid transmission line or aqueduct:

(i) what part, if any, of the line or aqueduct will be located underground;

(ii) that the facility is consistent with regional plans for expansion of the appropriate grid of the utility systems serving the state and interconnected utility systems; and

(iii) that the facility will serve the interests of utility system economy and reliability;

(e) that the location of the facility as proposed conforms to applicable state and local laws and regulations, except that the department may refuse to apply any local law or regulation if it finds that, as applied to the proposed facility, the law or regulation is unreasonably restrictive in view of the existing technology, of factors of cost or economics, or of the needs of consumers, whether located inside or outside the directly affected government subdivisions;

(f) that the facility will serve the public interest, convenience, and necessity;

(g) that the department or board has issued any necessary air or water quality decision, opinion, order, certification, or permit as required by 75-20-216(3); and

(h) that the use of public lands for location of the facility was evaluated and public lands were selected whenever their use is as economically practicable as the use of private lands.

(2) In determining that the facility will serve the public interest, convenience, and necessity under subsection (1)(f), the department shall consider:

(a) the items listed in subsections (1)(a) and (1)(b);

(b) the benefits to the applicant and the state resulting from the proposed facility;

(c) the effects of the economic activity resulting from the proposed facility;

(d) the effects of the proposed facility on the public health, welfare, and safety;

(e) any other factors that it considers relevant.

(3) Within 30 days after issuance of the report pursuant to 75-20-216 for a facility defined in 75-20-104(8)(c), the department shall approve a facility as proposed or as modified or an alternative to a proposed facility if the department finds and determines:

(a) that the facility or alternative incorporates all reasonable, cost-effective mitigation of significant environmental impacts; ~~or~~ and

(b) that unmitigated impacts, including those that cannot be reasonably quantified or valued in monetary terms, ~~do not pose any threat of serious injury or damage to~~ will not result in:

(i) a violation of a law or standard that protects the environment; or

~~(ii) the social and economic conditions of inhabitants of the affected area; or~~

~~(iii)~~(ii) a violation of a law or standard that protects the public health~~,~~ and safety~~, or welfare of area inhabitants~~.

(4) For facilities defined in ~~77-20-104(8)~~ 75-20-104, if the department cannot make the findings required in ~~75-20-301~~ this section, it shall deny the certificate."

Section 14. Section 75-20-303, MCA, is amended to read:

"75-20-303. Opinion issued with decision -- contents. (1) In rendering a decision on an application for a certificate, the department shall issue an opinion stating its reasons for the action taken.

(2) If the department has found that any regional or local law or regulation that would be otherwise applicable is unreasonably restrictive, it shall state in its opinion the reasons that it is unreasonably restrictive.

(3) A certificate issued by the department must include the following:

(a) an environmental evaluation statement related to the facility being certified. The statement must include but is not limited to analysis of the following information:

(i) the environmental impact of the proposed facility; and

(ii) any adverse environmental effects that cannot be avoided by issuance of the certificate;

(b) a plan for monitoring environmental effects of the proposed facility;

(c) a plan for monitoring the certified facility site between the time of certification and completion of construction;

(d) a time limit as provided in subsection (4); and

(e) a statement signed by the applicant showing agreement to comply with the requirements of this chapter and the conditions of the certificate.

(4) (a) The department shall issue as part of the certificate the following time limits:

(i) For a facility as defined in 75-20-104(8)(a) that is more than 30 miles in length and for a facility defined in 75-20-104(8)(b), construction must be completed within 10 years.

(ii) For a facility as defined in 75-20-104(8)(a) that is 30 miles or less in length, construction must be completed within 5 years.

(iii) For a facility as defined in 75-20-104(8)(c), construction must begin within 6 years and continue with due diligence in accordance with preliminary construction plans established in the certificate.

(b) Unless extended, a certificate lapses and is void if the facility is not constructed or if construction of the facility is not commenced within the time limits provided in this section.

(c) The time limit may be extended for a reasonable period upon a showing by the applicant to the department that a good faith effort is being undertaken to complete construction under subsections (4)(a)(i) and (4)(a)(ii). Under this subsection, a good faith effort includes the process of acquiring any necessary state or federal permit or certificate for the facility and the process of judicial review of a permit or certificate.

(d) Construction may begin immediately upon issuance of a certificate unless the department finds that there is substantial and convincing evidence that a delay in the commencement of construction is necessary and should be established for a particular facility."

Section 15. Section 85-2-124, MCA, is amended to read:

"85-2-124. Fees for environmental impact statements. (1) Whenever the department determines that the filing of an application ~~(~~or a combination of applications~~)~~ for a permit or approval under this chapter requires the preparation of an environmental impact statement as prescribed by the Montana Environmental Policy Act and the application ~~(~~or combination of applications~~)~~ involves the use of 4,000 or more acre-feet per year and 5.5 or more cubic feet per second of water, the applicant shall pay to the department the fee prescribed in this section. The department shall notify the applicant in writing within 90 days of receipt of a correct and complete application ~~(~~or a combination of applications~~)~~ if it determines that an environmental impact statement and fee

is required.

(2) Upon notification by the department under subsection (1), the applicant shall pay a fee based upon the estimated cost of constructing, repairing, or changing the appropriation and diversion facilities as ~~herein~~ provided in this section. The maximum fee that ~~shall~~ must be paid to the department may not exceed the fees set forth in the following declining scale: 2% of the estimated cost up to $1 million; plus 1% of the estimated cost over $1 million and up to $20 million; plus 1/2 of 1% of the estimated cost over $20 million and up to $100 million; plus 1/4 of 1% of the estimated cost over $100 million and up to $300 million; plus 1/8 of 1% of the estimated cost over $300 million. The fee ~~shall~~ must be deposited in the state special revenue fund to be used by the department only to comply with the Montana Environmental Policy Act in connection with the ~~application(s)~~ application or applications. Any amounts paid by the applicant but not actually expended by the department ~~shall~~ must be refunded to the applicant.

(3) The department and the applicant may determine by agreement the estimated cost of any facility for purposes of computing the amount of the fee to be paid to the department by the applicant. The department may contract with an applicant for:

(a) the development of information by the applicant or a third party on behalf of the department and the applicant concerning the environmental impact of any proposed activity under an application;

(b) the division of responsibility between the department and an applicant for supervision over, control of, and payment for the development of information by the applicant or a third party on behalf of the department and the applicant under any ~~such~~ contract ~~or contracts~~;

(c) the use or nonuse of a fee or any part ~~thereof~~ of a fee paid to the department by an applicant.

(4) Any payments made to the department or any third party by an applicant under any ~~such~~ contract ~~or contracts shall~~ must be credited against any fee that the applicant ~~must~~ is required to pay ~~hereunder~~ under this section. The department and the applicant may agree on additional credits against the fee for environmental work performed by the applicant at the applicant's own expense.

(5) ~~No~~ A fee as prescribed by this section may not be assessed against an applicant for a permit or approval if the applicant has also filed an application for a certificate of ~~environmental compatibility or public need~~ compliance pursuant to the Montana Major Facility Siting Act and the appropriation or use of water involved in the ~~application(s)~~ application or applications for permit or approval has been or will be studied by the department pursuant to that act.

(6) This section ~~shall apply~~ applies to all applications, pending or ~~hereinafter~~ filed, for which the

department has not~~, as of April 9, 1975,~~ commenced writing an environmental impact statement. This section ~~shall~~ does not apply to any application~~,~~ if the fee for ~~which~~ the application would not exceed $2,500.

(7) Failure to submit the fee as required by this section ~~shall void~~ voids the ~~application(s)~~ application or applications.

(8) The department may in its discretion rely upon the environmental studies, investigations, reports, and assessments made by any other state agency or any person, including any applicant, in the preparation of its environmental impact statement."

Section 16. Section 85-2-607, MCA, is amended to read:

"85-2-607. Utility facilities. This part does not apply to applications to appropriate water for use by a utility facility for which a certificate of ~~environmental compatibility and public need~~ compliance is granted pursuant to the Montana Major Facility Siting Act."

Section 17. Section 85-15-107, MCA, is amended to read:

"85-15-107. Exemptions. (1) The provisions of 85-15-108 through 85-15-110, 85-15-209 through 85-15-216, 85-15-305, 85-15-401, 85-15-502, and 85-15-503 do not apply to:

(a) dams subject to a permit issued pursuant to 82-4-335 for the period during which the dam is subject to the permit;

(b) federal dams and reservoirs;

(c) dams and reservoirs licensed and subject to inspection by the federal energy regulatory commission; or

(d) dams that are required to obtain a certificate of ~~environmental compatibility and public need~~ compliance pursuant to 75-20-201 for the period during which the dam is subject to the certificate.

(2) The provisions of 85-15-108 through 85-15-110, 85-15-209 through 85-15-216, 85-15-401, 85-15-502, and 85-15-503 do not apply to nonfederal dams and reservoirs located on federal lands if they are subject to a dam safety review by a federal agency.

(3) The provisions of 85-15-305 do not apply to dams and reservoirs at a national priority list site as defined by the federal Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), Public Law 96-510."

Section 18. Section 90-6-207, MCA, is amended to read:

"90-6-207. Priorities for impact grants. (1) The department of commerce shall biennially designate:

(a) each county, incorporated city and town, school district, and other governmental unit that has had or expects to have as a result of the impact of coal development a net increase or decrease in estimated population of at least 10% over one of the 3-year periods specified in subsection (4);

(b) each county and all local governmental units within each county in which:

(i) a mining permit in accordance with the Montana Strip and Underground Mine Reclamation Act has been granted by the department of environmental quality for a project within the county that will establish a new coal mine to produce at least 300,000 tons a year and that the department of commerce determines will commence production within 2 years;

(ii) the department of commerce has determined that the production of an existing mine will increase or decrease by at least 1 million tons a year and that the new, expanded, or reduced production will commence within 2 years of the designation;

(iii) a newly constructed railroad serves a new, existing, or expanding coal mine; or

(iv) ~~a certificate of environmental compatibility and public need in accordance with the Montana Major Facility Siting Act has been granted by the board of environmental review~~ an air quality permit has been issued by the department of environmental quality for a new steam-generating or other new coal-burning facility that will consume at least 1 million tons a year of Montana-mined coal and for which the department of commerce determines the construction or operation will commence within 2 years of the designation;

(c) each local governmental unit located within 100 miles, measured over the shortest all-weather public road, of a mine or facility qualifying under subsection (1)(b)(i), (1)(b)(ii), or (1)(b)(iv); and

(d) each local governmental unit in which:

(i) a mine that has produced 300,000 tons or more of coal a year has ceased all significant mining or is scheduled to cease within 1 year; or

(ii) a steam-generating or other coal-burning facility that has operated under ~~a certificate of environmental compatibility and public need in accordance with the Montana Major Facility Siting Act~~ an air quality permit issued by the department of environmental quality and that has consumed at least 1 million tons of Montana-mined coal a year has closed or is scheduled to close within 1 year.

(2) Designation under subsection (1) of:

(a) any local governmental unit extends to and includes as a designated unit the county in which it is

located; and

(b) a county extends to and includes as a designated unit any local governmental unit in the county that contains at least 10% of the total population of the county.

(3) Except as provided in 90-6-205(4)(b), the board may not award more than 50% of the funds appropriated to it each year for grants to governmental units and state agencies for meeting the needs caused by an increase or decrease in coal development or in the consumption of coal by a coal-using energy complex to local governmental units other than those governmental units designated under subsection (1).

(4) For the purposes of subsection (1), the department of commerce shall use five 3-year periods as follows:

(a) one consecutive 3-year period ending 2 calendar years prior to the current calendar year;

(b) one consecutive 3-year period ending 1 calendar year prior to the current calendar year;

(c) one consecutive 3-year period ending with the current calendar year;

(d) one consecutive 3-year period ending 1 calendar year after the current calendar year; and

(e) one consecutive 3-year period ending 2 calendar years after the current calendar year.

(5) Attention should be given by the board to the need for community planning before the full impact is realized. Applicants should be able to show how their request reasonably fits into an overall plan for the orderly management of the existing or contemplated growth or decline problems.

(6) All funds appropriated under this part are for use related to local impact.

(7) All designations based on an increase in coal development or in the consumption of coal by a coal-using energy complex made under subsection (1)(a), (1)(b), or (1)(c) must be for 1 year. A designation may not continue after the department of commerce determines that the mine, railroad, or facility that provided the basis for a designation is contributing sufficient tax revenue to the designated governmental unit to meet the increased costs of providing the services necessitated by the development of the mine, railroad, or facility. However, nondesignated local governmental units continue to be eligible for coal impact grants of not more than 50% of the funds appropriated to the board for grants in circumstances in which an impact exists in a community or area directly affected by:

(a) the operation of a coal mine or a coal-using energy complex; or

(b) the cessation or reduction of coal mining activity or of the operation of a coal-using energy complex."

NEW SECTION. **Section 19. Saving clause.** [This act] does not affect rights and duties that matured,

penalties that were incurred, or proceedings that were begun before [the effective date of this act].

NEW SECTION. **Section 20. Severability.** If a part of [this act] is invalid, all valid parts that are severable from the invalid part remain in effect. If a part of [this act] is invalid in one or more of its applications, the part remains in effect in all valid applications that are severable from the invalid applications.

NEW SECTION. **Section 21. Effective date.** [This act] is effective on passage and approval.

MINUTES

MONTANA HOUSE OF REPRESENTATIVES
58th LEGISLATURE - REGULAR SESSION

COMMITTEE ON FEDERAL RELATIONS, ENERGY, AND TELECOMMUNICATIONS

Call to Order: By **CHAIRMAN ROD BITNEY,** on February 5, 2003 at 3:00 P.M., in Room 455 Capitol.

ROLL CALL

Members Present:
Rep. Rod Bitney, Chairman (R)
Rep. Gary Matthews, Vice Chairman (D)
Rep. Alan Olson, Vice Chairman (R)
Rep. Dee Brown (R)
Rep. Tim Dowell (D)
Rep. Hal Jacobson (D)
Rep. Jeff Laszloffy (R)
Rep. Scott Mendenhall (R)
Rep. John Parker (D)
Rep. Diane Rice (R)
Rep. Brennan Ryan (D)
Rep. Jim Shockley (R)

Members Excused: Rep. Daniel Fuchs (R)

Members Absent: Rep. Eileen J. Carney (D)

Staff Present: Glenna McClure, Committee Secretary
Mary Vandenbosch, Legislative Branch

Please Note. These are summary minutes. Testimony and discussion are paraphrased and condensed.

Note: Vice Chairman Olson acted as chairman for this day.

Committee Business Summary:
Hearing & Date Posted: HB 443, 1/29/2003; HB 356, 2/3/2003; HB 470, 2/3/2003
Executive Action: HB 377, HB 424

HEARING ON HB 443

Sponsor: **REPRESENTATIVE MICHAEL LANGE, HD 19**

Opening Statement by Sponsor:

{Tape: 1; Side: A; Approx. Time Counter: 1.2 - 12.6}

REP. LANGE said that HB 443 is a bill to revise the Major Facility Siting Act. This bill does the following:
1. Renames the "certificate of environmental compatibility" to the "certificate of compliance."
2. Revises the fee schedule on page eight and nine of the bill. Research has been done regarding the fees and has been reviewed by the Department of Environmental Quality.
3. Economic impact and environmental impact are affected.
4. Limits total review time for an application for amendment.
5. Clarifies and simplifies the legal notice requirement. Legal notice was changed to be noticed in the county of the site. In the case of a transmission line that crosses more than one county, they would all be served notice.
6. Limits the reporting paperwork for applicant. Presently applicants must submit copies to nearly every department in State Government.
7. States the additional constitutional intent and clarifies the policy on page three. The last line "the balancing of these constitutional rights is necessary in order to maintain a sustainable quality of life for all Montanans" sends the message to business and industry that we respect them. It clarifies what the whole constitution section says.
8. Clarifies when a MEPA document is required.
9. Clarifies intent on pages 13, 14, 18, and 10.

Take note of the Fiscal Note - it is zero. It does not cost the General Fund money. The purpose of the bill is common sense. He distributed a map of Priority Corridors with Federal Land.

EXHIBIT(feh25a01)

Proponents' Testimony:

{Tape: 1; Side: A; Approx. Time Counter: 12.6 - 14.2}

Jim Mockler, Executive Director, Montana Coal Council, said that one project that will likely have a power plan connected to it is Otter Creek. This bill attempts to address power lines and pipelines.

Gail Abercrombie, Montana Petroleum Association, said that they are in favor of this bill.

Don Allen, Western Environmental Trade Association, said that this bill does a lot to deal with what needs to be done without lessening the standards.

Willie Duffield, Montana Association of Oil Gas and Coal Companies, said he was here to support this bill.

Jerry Driscoll, Montana State AFL-CIO, said that these changes are very necessary.

Tom Harrison, Spring Creek Coal, stated that they are in favor of this bill.

Opponents' Testimony:

{Tape: 1; Side: A; Approx. Time Counter: 14.2 - Tape: 1; Side B; 7.7}

Patrick Judge, Montana Environmental Information Center, said this bill weakens the Montana Facility Siting Act (MFSA). He distributed went over a brief history of the MFSA. This will be the 10th session that the Act will be weakened.

EXHIBIT(feh25a02)

John Wilson, Montana Trout Unlimited, said that the word "compliance" means that they are in compliance with the laws of the State of Montana. There are gaps in Montana law that don't cover certain instances of compatibility. He questioned if the state has adequate environmental protection in place for a nuclear power plant or nuclear waste depository to be sited in the state. He gave an example of a pipeline that would cross 11 trout streams. It was determined that there would be a significant adverse effect on the environment. The impacts would include whirling disease, disruption of spawning migration, and disruption of spawning habitat. In the Environmental Impact Statement (EIS), the Department of Environmental Quality (DEQ) made suggestions on how to reduce or eliminate the impacts although they have no legal authority to require those changes. This bill needs to be amended to accommodate the trout and wildlife in Montana.

Debbie Smith, Natural Resources Defense Council (NRDC) and Renewable Northwest Project (RNP), said that there is a growing constituency in the country for power development companies to

work with the public interest communities and local landowners when power plants are sited. The amendments to the MFSA are not necessary. She urged the committee to strike the language on page three, line 16 and 17, about balancing because it is not clear. She also questioned the effectiveness of eliminating providing copies to the affected state agencies. Page 13, Line 29 through Page 14, Line 6, indicates that you have to show a law or standard is going to be violated before the Department can deny a certificate. This could be a problem because it is possible that land can be damaged without violating a standard or law. She distributed testimony from the Montana Chapter of the Sierra Club.

EXHIBIT(feh25a03)

Matthew Leow, Montana Public Interest Research Group (MTPIRG), said that they support the comments by other opponents of the bill.

Informational Testimony:

{Tape: 1; Side: B; Approx. Time Counter: 7.7 - 8.5}

Mark Lindberg, Governor's Office of Economic Opportunity, offered to be available for questions.

Tom Ring, Department of Environmental Quality, said that he was also there to be available for questions.

Questions from Committee Members and Responses:

{Tape: 1; Side: B; Approx. Time Counter: 8.5 - Tape: 2; Side: A; 2.4}

REP. BROWN asked Patrick Judge if he would agree that the "P" in MEPA was "policy" rather than "protection."

Mr. Judge said, "Yes."

REP. BROWN asked how many other states have an Environmental Policy Act besides Montana.

Mr. Judge said he did not know.

REP. MENDENHALL asked if it should be construed as compliance if a company wanting to open a plant in Montana complies with every law in the state.

Mr. Lindberg said, "Yes."

REP. MENDENHALL asked if it is not construed as compliance, what kind of message does this send to firms wishing to develop in the state.

Mr. Lindberg said that it sends a negative message.

REP. MENDENHALL asked Mr. Lindberg to share some of his experiences.

Mr. Lindberg said that they nearly lost the Roundup project due to the permitting processes, time involvements, dates and overall confusion of what needed to be done. Industry wants to follow the rules and regulations.

REP. RICE asked if the project on the Dearborn was going forward to put a pipeline under the river.

Mr. Judge said that the companies were amenable to the suggestions by DEQ and are going through with the project. The Roundup Project, however, is refusing to adopt suggestions by DEQ.

REP. PARKER said that under the current law, an Environmental Impact Statement would be automatic and, under the new language, there would only be an EIS if the Department finds that there is compelling evidence of adverse impact. He asked Mr. Ring if there would be any outlet for a local government agency or local landowner to appeal the decision if the Department found that an EIS was not necessary.

Mr. Ring said there is another part of the law that deals with an expedited review. The expedited review section allows for an environmental assessment as opposed to an EIS.

REP. PARKER asked what the opportunities were for public participation in the application process under the current law.

Mr. Ring said that opportunities for public comment are not spelled out in the law. Opportunities for public comment are in the decision-making process. The Environmental Policy Act provides the opportunity for public comment.

REP. MENDENHALL asked if the change in language would remove the requirement of filing with the Department.

REP. LANGE said that the changes to the bill do not affect that current process for a transmission line siting regarding public hearings.

Closing by Sponsor:

{Tape: 2; Side: A; Approx. Time Counter: 2.4 - 7.5}

REP. LANGE said the last Nuclear Power Plant that was built in the United States was 10 years ago and cost over $12 billion. The cost would prohibit a plant of that type being built in Montana. The Big Horn River Trout Fishery would not exist if it were not for the dam in the canyon. There are pipelines that go under rivers currently. The press is good at informing the public where projects are being considered. The purpose of this bill is not to weaken a law but to clarify the measuring stick that we use.

CONCURRENT HEARING ON HB 356 AND HB 470

Sponsor: **REP. CHRISTOPHER HARRIS, HD 30**

Opening Statement by Sponsor:

{Tape: 2; Side: A; Approx. Time Counter: 7.5 - 12.9}

REP. HARRIS said that the two bills that he is proposing extend the Universal System Benefits Program (USB) in two different ways. HB 470 would create a three-year rolling average of the price. In the current law a static figure is used which is 1995 prices.

Under HB 356 the static 1995 figure is used and there is an addition for the benefits which creates a new beneficiary. The new beneficiary is the group homes for the developmentally disabled and organizations that serve them.

USB is an important program that serves low-income energy assistance and weatherization, cost-effective conservation programs, market transformation, and research and development in renewables.

Note: Testimony will be taken for each bill separately.

Proponents' Testimony HB 356: None

Opponents' Testimony HB 356:

{Tape: 2; Side: A; Approx. Time Counter: 12.9 - Tape: 2; Side: B; 4.3}

Debbie Smith, Natural Resource Defense Council/Renewable Northwest Project, said that they are on the fence regarding these bills. There is going to be a need for the USB programs for a long time into the future. They very much oppose the new beneficiary. Those organizations are currently eligible to apply for programs. This bill does not create new funding and therefore takes funds from the programs already in place.

Tom Schneider, Public Service Commission, provided a written copy of his testimony.

EXHIBIT(feh25a04)

Susan Good, representing herself, said that she was here when this program was started. In the bill, 69-8-402, Subsection 5, the utilities annual funding requirement for low-income energy assistance is established at 17% of the total funds collected. She suggested that the committee form a subcommittee to review these bills.

Patrick Judge, MEIC, rises in opposition to this bill. They do agree with extending the dates, but does agree with Ms. Smith regarding the distribution of funds to additional programs.

Doug Hardy, Montana Electric Cooperatives Association, said that they oppose the bill specifically but not USB. He would encourage the extension in HB 470.

John Fitzpatrick, Northwestern Energy, NWE, distributed a policy statement from NWE regarding these bills.

EXHIBIT(feh25a05)

Joe Roberts, Human Resource Development Council Directors, said they oppose opening this up to specific provider groups. There are currently group homes that get assistance and will continue to do so.

Proponents' Testimony HB 470:

{Tape: 2; Side: B; Approx. Time Counter: 4.3 - 7.3}

Patrick Judge, MEIC, said he is a proponent in part because he does see some potential problems with this bill. He went over the history of the USB program. He said that the wording on page one, line 16 leaves a gap in effective dates and recommend an amendment to correct it.

Opponents' Testimony HB 470:

{Tape: 2; Side: B; Approx. Time Counter: 7.3 - 13.2}

Debbie Smith, NRDC/NRC, said that they oppose this bill as she has discussed earlier. This bill opens a whole new administrative regime with no obvious benefit. There is no increase in USB funds.

Doug Hardy, Montana Electric Cooperatives, said that they also oppose this bill.

John Fitzpatrick, NWE, agreed with previous testimony.

Tom Schneider, PSC, distributed copies of the NWE Rate Schedule Revenue.

EXHIBIT(feh25a06)

Questions from Committee Members and Responses HB 356 and HB 470:

None

Closing by Sponsor:

{Tape: 2; Side: B; Approx. Time Counter: 13.2 - 14.7}

REP. HARRIS said that it would make sense to have a three-year rolling average. He urged that one way or another that the committee extend the USB.

EXECUTIVE ACTION ON HB 377

{Tape: 2; Side: B; Approx. Time Counter: 14.7 - 21.9}

Motion: REP. MATTHEWS moved that **HB 377 DO PASS.**

Motion: REP. MATTHEWS moved that **HB 377 BE AMENDED.**

EXHIBIT(feh25a07)

Discussion:

There was some discussion regarding the need to keep the companies accountable if this bill were passed.

Vote: Motion to AMEND HB 377 failed 7-7 with REPRESENTATIVES MATTHEWS, CARNEY, DOWELL, JACOBSON, PARKER, RYAN, and SHOCKLEY voting aye by roll call vote. **REPRESENTATIVES CARNEY, FUCHS, JACOBSON, AND RYAN** voted by proxy

Vote: Motion that **HB 377 DO PASS carried 12-2 with REPRESENTATIVES DOWELL and SHOCKLEY voting no. REPRESENTATIVES CARNEY, FUCHS, JACOBSON, and RYAN** voted by proxy.

EXECUTIVE ACTION ON HB 424

{Tape: 2; Side: B; Approx. Time Counter: 21.9 - 30}

Note: REPRESENTATIVE JACOBSON arrived in time for the vote on HB 424.

Motion: REP. LASZLOFFY moved that **HB 424 DO PASS.**

Motion: REP. PARKER moved that **HB424 BE AMENDED.**

EXHIBIT(feh25a08)

Discussion:

There was some discussion on the exemption for nonprofit organizations.

Vote: Motion on **AMENDMENT (EXHIBIT 8) carried 13-1 with REP. BROWN voting no. REPRESENTATIVES RYAN, FUCHS, and CARNEY** voted by proxy.

Motion: REP. BITNEY moved that **HB 424 BE AMENDED.**

EXHIBIT(feh25a09)

Discussion:

Mary Vandenbosch explained the amendment to the committee.

There was some discussion on the amendments.

Vote: **Motion** on **AMENDMENT (EXHIBIT 9) failed 5-9 with REPRESENTATIVES BITNEY, OLSON, FUCHS, MENDENHALL, and SHOCKLEY voting aye** by roll call vote. **REPRESENTATIVES CARNEY, RYAN and FUCHS** voted by proxy.

Vote: **Motion** to **HB 424 DO PASS carried unanimously.**

MINUTES

MONTANA SENATE
58th LEGISLATURE - REGULAR SESSION

COMMITTEE ON NATURAL RESOURCES

Call to Order: By **CHAIRMAN BILL TASH**, on March 12, 2003 at 3:13 P.M., in Room 405 Capitol.

ROLL CALL

Members Present:
Sen. Bill Tash, Chairman (R)
Sen. Aubyn Curtiss, Vice Chairman (R)
Sen. Sherm Anderson (R)
Sen. Gregory D. Barkus (R)
Sen. Jon Ellingson (D)
Sen. Rick Laible (R)
Sen. Bea McCarthy (D)
Sen. Dan McGee (R)
Sen. Gary L. Perry (R)
Sen. Glenn Roush (D)
Sen. Debbie Shea (D)
Sen. Ken Toole (D)

Members Excused: None.

Members Absent: None.

Staff Present: Krista Lee Evans, Legislative Branch
Roberta Opel, Committee Secretary

Video-taped Committee: These minutes are in outline form only. They provide a list of participants and a record of official action taken by the committee. A video-taped recording of the meeting is available from the Montana Historical Society.

Committee Business Summary:
Hearing & Date Posted: HB 683, 3/12/2003, HB 443, 3/12/2003, HJ 4, 3/12/2003, HB 303, 3/12/2003
Executive Action: None

HEARING ON HB 683

Opening Statement by Sponsor: **REP. JOHN BRUEGGEMAN, HD 74, Polson**, presented HB 683 to the committee; revise requirements for a change in a water appropriation right. **EXHIBIT(nas52a01)**

Proponents' Testimony:

3:16pm Jan Niemeyer, representing both Charlo and Lake County
EXHIBIT(nas52a02) **EXHIBIT(nas52a03)** **EXHIBIT(nas52a04)**
3:17pm John Tubbs, representing DNRC
3:18pm Jack Stults, Administrator, Water Resources Division, MT. Dept. of Natural Resources and Conservation (DNRC)
EXHIBIT(nas52a05)
3:31pm Jon Metropoulos, on behalf of MT. Water Resources Assoc.
3:32pm Rep. Rick Ripley, HD 50, Wolf Creek

Opponents' Testimony:

3:33pm Fred Matt, Tribal Chairman, Confederated Salish and Kootenai Tribes **EXHIBIT(nas52a06)**
3:36pm John Carter, attorney, Confederated Salish and Kootenai Tribes
3:40pm Rep. Frank Smith, representing Fort Peck Reservation
3:442pm Rep. Joey Jayne, representing Charlo

Informational Testimony and Witnesses:

Written testimony was submitted from the MT. Legislative Services Division, Legal Services Division **EXHIBIT(nas52a07)**

Questions from Committee Members and Responses:

3:43pm Begin
4:17pm End
26 min Elapsed time

Closing by Sponsor:

4:17pm **REP. BRUEGGEMAN** closed the hearing on HB 663.

HEARING ON HB 443

Opening Statement by Sponsor: **REP. MICHAEL LANGE, HD 19, Billings**, presented HB 443 to the committee; revise major facility siting act.

Proponents' Testimony:

4:30pm Bob Pavlovich, representing IBEW 233
4:31pm Jim Mockler, representing MT. Coal Council
4:31pm Don Allen, WETA
4:43pm Gail Abercrombie, MT. Petroleum Association

Opponents' Testimony:

4:35pm Patrick Judge, Montana Environmental Information Center
EXHIBIT(nas52a08).
4:40pm Sherm Janke, representing MT. Chapter of the Sierra Club

4:46pm Michele Reinhart, Northern Plains Resource Council (NPRC)

Questions from Committee Members and Responses:

4:47pm Begin
4:56pm End
9 min Elapsed time

Closing by Sponsor:

4:56pm **REP. LANGE** closed on HB 443.

HEARING ON HJ 4

Opening Statement by Sponsor: **REP. MICHAEL LANGE, HD 19, Billings**, presented HJ 4 to the committee; water management practices review.

Proponents' Testimony:

5:02pm Jack Stults, Administrator, Water Resources Division, DNRC
5:03pm Bob Goffena, Deadman Basin Water User's Board
5:10pm John Wilson, representing MT. Trout Unlimited
5:11pm Larry Peterman, Chief, Field Operations, MT. Dept. of Fish, Wildlife & Parks (FWP)
5:12pm Sherm Janke, representing MT. Sierra Club
5:14pm John Bloomquist, representing MT. Stockgrower's Association
5:16pm Michele Reinhard, NPRC
5:16pm Holly Franz, representing MT. Water Resources Association

Opponents' Testimony: None

Questions from Committee Members and Responses:

5:17pm Begin

5:25pm End
8 min Elapsed time

Closing by Sponsor:

5:27pm **REP. LANGE** closed the hearing on HJ 4.

HEARING ON HB 303 (2nd hearing)

Proponents' Testimony: None

Opponents' Testimony:

5:29pm Sherm Janke, representing MT. Sierra Club

Questions from Committee Members and Responses:

5:32pm Begin
5:34pm End
